

Renton-Harper Periodontics Procedure for Patient Attendance

We ask patients to follow the procedure below in order to optimise our social distancing measures:

On arriving at the practice:

- Please stay in your car or outside the building until 5 minutes before your appointment time
- Enter the building alone unless it is essential to have someone accompanying you to assist you
- Please bring as little as possible into the building such as coats, bags etc
- Please put on a mask before entering the building
- On entering the building, turn right and reception is directly through the door on your right
- Please use the hand sanitiser provided. Please do not wear gloves.
- A member of staff will ask you a few screening questions and take your temperature

During your time in the surgery:

- Please note that due to the need to avoid the generation of aerosols, patients are not able to rinse and spit. Where necessary we will use our high volume evacuation systems to remove excess saliva.
- Once the examination / treatment has been completed, you should replace your mask and you will be offered hand sanitiser

On leaving:

- Please please ensure that your face mask is on
- Please use the provided sanitiser again before approaching reception

If you have any concerns prior to or following your visit, please do not hesitate to contact us :
